

## Model. WAC3

3kW Screen Door Heater

### Features & Benefits

- Warm air curtain with aesthetic slimline body, ideal for mounting over doors
- BS EN60335-2-30:2009, CE approval
- 2 heat setting 1.5kW & 3kW
- Switch control for fans only

### Safety Information

**IMPORTANT** - Before undertaking any work on or maintenance of fitting:-

- Switch off power supply and allow sufficient time to cool before handling
- Do not dispose of decommissioned fitting in household waste
- Dispose of fitting in the appropriate section of your local civic amenity site or recycling centre only

### Technical Specifications

| General Information        |                                                                               |
|----------------------------|-------------------------------------------------------------------------------|
| Product Colour/Finish      | Epoxy White painted                                                           |
| Dimensions (mm)            | 580 x 205 x 104.5mm                                                           |
| Ingress Protection (IP)    | IP20                                                                          |
| Electrical                 |                                                                               |
| Input Voltage (v)          | 220-240V                                                                      |
| Output Rating (W)          | 3kW                                                                           |
| Frequency (Hz)             | 50Hz                                                                          |
| Mounting Position          | Ceiling or wall mounting                                                      |
| Mounting Bracket (Y/N)     | Comes with mounting bracket                                                   |
| Cable Length (Mtrs)        | 3 Core 1.5Mtr                                                                 |
| Class                      | I                                                                             |
| Approvals/Certifications   | CE, RoHS, GS                                                                  |
| Performance Data           |                                                                               |
| Air Volume/Velocity (cbm)  | 254 cubic meter/hr                                                            |
| Noise level (dB)           | 4m/s (Noise: 42dB)                                                            |
| Tip-Over Sensor (Y/N)      | Y                                                                             |
| Over-Heat protection (Y/N) | Y                                                                             |
| Construction               |                                                                               |
| Body Material              | Steel sheet and powder coating                                                |
| Grill                      | With grills                                                                   |
| Gross Weight (g)           | 5.2kg                                                                         |
| Warranty Period (Years)    | 1Yr                                                                           |
| Other                      |                                                                               |
| Applications               | Suitable for shops, restaurants, pubs, clubs, stores, over door screen heater |
